[Penis Mesh For IMVU](#)

*Step 4: Now we are in the creator program on IMVU. Here we will change the texture of the hair. Make sure under "Material Parameters" that "Self Illuminated" is checked beside each texture and "Vertex Colors" is unchecked beside each texture then "Apply Changes". You can also go to your outfits tab and put on a saved outfit to get rid of the default avatar, do not worry if you have other hair saved to the outfit, the product you are deriving will override that hair.*
